WHAT THE DEPARTMENT OF AGRICULTURE IS DOING

MILLION FARMERS BACK COUNTY AGENTS

At present more than 1,000,000 farmers are members of organizations assisting the county agent in his work. Through these organizations the American farmer and his family are now in close personal touch with a large corps of well-trained men and women so linked with Federal and State institutions for the promotion of agriculture that farming people can readily avail themselves of the results of

scientific research and practical experience the world over to aid them in their work on the farm and their life in the home.

HOW ONE HONOR MEDAL WAS WON

Ethel Lyndberg, 15, who lives in Salt Lake County, Utah, will have pinned on her the four leaf clover medal which is awarded members of boys' and girls' clubs who for four consecutive years have done successful work in their clubs. In the past season, beside attending high school, Ethel plowed 60 acres and harrowed and leveled it for wheat, alfalfa, and beets and in season helped her father cut hay. She also assisted with irrigation, in her father's absence, turning the water on and off alone. She canned 660 quarts of fruit and vegetables and dried many pounds. Meanwhile she was baking the bread for the family. One hundred chickens grew to maturity during the summer under her care. In her spare moments she has knitted socks for soldiers. When she finishes high school Ethel plans to attend college where she may study agriculture and home economics.

UTAH HOG PRODUCTION HELPED

Hog production in Utah recently has received much stimulus because small farmers, especially those some distance from railroads, have been able to get their hogs to market at greatly reduced expense through co-operative shipping. More than 100 farmers shipped 18 car loads to the North Salt Lake Stock Yards in three months. The hogs came from sections 35 to 90 miles from a railroad shipping point and in some instances were brought in wagons by the growers to a central point where automobile trucks were used to transport them to the shipping point. Others were shipped by local freight to a central point where carload were assembled. Each lot of hogs was marked by clipping the hair and was yarded, fed and sold separately. Shipping expense was prorated and each owner received an individual check. The plan has not only increased shipments but improved the quality of the offerings, the Bureau of Markets reports.

SEED DISEASE FREE ALFALFA STRAINS

The "yellowing" of alfalfa, a disease which has become common in many localities where alfalfa is grown and which is proving a serious menace to this valuable crop, is being studied by specialists of the United States Department of Agriculture with a view of developing strains that are resistant to the disease. Seed of alfalfa hybrids which have shown resistant qualities has been sown in the west with a view of increasing the stocks to the point where field tests can be made.

MORE WILT RESISTANT COTTON PLANTED

Demonstrations conducted by the United States Department of Agriculture on the control of cotton wilt which have been in progress for several years, resulted last year in the planting of a larger acreage of wilt resistant cotton than ever before with an actual saving greatly in excess of any previous year. The great possibilities of this work is shown by reports from two cotton planters in South Carolina who state that their savings last year through growing wilt resistant cotton was approximately \$115,000.

IMPROVING DAIRY WORK IN WISCONSIN

To develop better dairy herds and at the same time save the calves of the plan of the dairymen of Wisconsin. In this endeavor as in other pursuits allied with agricultural stimulation, the interest of boys' and girls' club members is being enlisted. Where clubs are formed consisting of not less than five members, the dairymen are helping the youngsters to buy their stock.

A great improvement was noted in the exhibit at the Wisconsin State

NOVEL STAGE SETTING IN "MY SOLDIER GIRL"

Probably the most novel and interesting stage setting ever presented with a road attraction is the tableaux scene in the last act of the big mil-

itary musical spectacle, "My Soldier Girl," the attraction coming to the Lyric theatre December 26.

As the curtain rises the stage is perfectly dark, the boom of heavy guns are heard in the distance, as the light effects bring out the gaudy scene, the outlines of a battlefield presented in all its destruction. "Somewhere in France." The men are pictured in the trenches, wounded soldiers are being cared for, the aviation corps are returning for the word has come forth that Peace has been declared and the bewildering

Liberty changing immediately to a picture by special designed costumes form an American flag. A patriotic air is rendered and the cleverly arranged scene closes with Liberty forever. There are nearly forty people in the company, including an excellent cast and a wonderful "pony" ballet. Among the several song hits are "My Soldier Girl," Jasper's Ragtime Band," "Take Me Home With You," "Sugar Baby," "Just For You," and "Let's Keep the Glow in Old Glory."

XMAS CHEER FOR ALL
